

\*3. Prove that the language L is CFL by using properties of CFL (DO NOT draw PDA or CFG). (Homework 9)

$$L3 = \{0^i 1^j 2^k : j = i + k\}$$

$$\text{ถ้า } 0^i 1^{i+k} 2^k$$

$$L3 = L1L2$$

$$L1 = \{0^i 1^i, i \geq 0\}$$

$$L2 = \{1^k 2^k, k \geq 0\}$$

$$L3 = \{0^i 1^{i+k} 2^k, i \geq 0, k \geq 0\}$$

สรุปได้ว่า L เป็น CFL
